**Serbia-Belgrade: Hydrometeorology services
2022/S 075-197241**

Corrigendum

Notice for changes or additional information

Services

(Supplement to the Official Journal of the European Union, 2022/S 054-139565)

Legal Basis:

EIB Guide to Procurement

Section I: Contracting authority/entity

I.1) Name and addresses

Official name: Ministry of Construction, Transport and Infrastructure

Postal address: Nemanjina 22-26

Town: Belgrade

NUTS code: RS Srbija/Србија / Serbia

Postal code: 11000

Country: Serbia

Contact person: Veljko Kovacevic

E-mail: veljko.kovacevic@mgsi.gov.rs

Telephone: +381 642787119

Internet address(es):

Main address: <https://mgsi.gov.rs/>

Section II: Object

II.1) Scope of the procurement

II.1.1) Title:

Implementation of a network of hydrometeorological stations along the Danube and Sava rivers in the Republic of Serbia

Reference number: EIB-GtP/342-01-1658/2021-06

II.1.2) Main CPV code

71351612 Hydrometeorology services

II.1.3) Type of contract

Services

II.1.4) Short description:

Services for the implementation of a network of hydrometeorological stations along the Danube and Sava rivers in the Republic of Serbia.

Services include: detailed design and preparation of technical documents (design, software specifications, test plan, etc.), supply, installation and commissioning of equipment, software development, installation and integration, pilot operation, training and support of administration and operating personnel.

Funding

SERBIAN INLAND WATERWAY INFRASTRUCTURE Finance Contract between the Republic of Serbia and European Investment Bank (Official Gazette of the Republic of Serbia – International Contracts, No. 02/2019) – 40 % EIB and 60% state budget of the Republic of Serbia

Section VI: Complementary information

VI.5) Date of dispatch of this notice:

13/04/2022

VI.6) Original notice reference

Notice number in the OJ S: [2022/S 054-139565](#)

Section VII: Changes

VII.1) Information to be changed or added

VII.1.2) Text to be corrected in the original notice

Section number: III.1.2

Place of text to be modified: Economic and financial standing

Instead of:

List and brief description of selection criteria:

The reference period which will be taken into account will be the last three years for which accounts have been closed:

- the average annual turnover of the candidate over the last 3 years (2018, 2019 and 2020) must be at least 4 000 000 EUR;
- the average current ratio (current assets/current liabilities) over the last 3 years (2018, 2019 and 2020) must be greater than 1 (>1)

List and brief description of selection criteria:

The reference period which will be taken into account will be the last three years for which accounts have been closed:

- the average annual turnover of the candidate over the last 3 years (2018, 2019 and 2020) must be at least 4 000 000 EUR;
- the average current ratio (current assets/current liabilities) over the last 3 years (2018, 2019 and 2020) must be greater than 1 (>1).

Documentary evidence confirming economic and financial standings of the Applicant must be submitted together with the Application Form.

Section number: III.1.3

Place of text to be modified: Technical and professional ability

Instead of:

List and brief description of selection criteria:

The reference period which will be taken into account will be the last six years preceding the submission deadline.

Professional capacity:

- The bidder must have at least twenty (30) permanent staff currently working in the field of engineering or IT/ consultancy. Permanent staff is staff whose employment is not based on fixed term contracts;

Technical capacity:

a) service provision in at least one (1) contract with a budget of at least that of this contract in the domain of the intelligent transport infrastructure (ITS) implementation

b) at least one (1) contract of hydrometric or hydrological or meteorological network-system implementation with at least 30 measuring stations implemented

implemented at any moment during the reference period, meaning that the project referred to could have been started/completed at any time during the indicated period but it does not have to be started and completed during that period, nor implemented during the entire period. Tenderers are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. Completed projects will be considered in their whole if documentary evidence is provided (statement/certificate from the CA/Beneficiary, proof of final payment). For still on-going projects, only the part completed during the reference period, although started earlier, shall be considered and will have to be supported by documentary evidence (similarly to projects completed), detailing its value. If a project was implemented in a consortium, the percentage that the tenderer has completed must be stated in the evidence, together with a description of the services provided if the selection criteria relating to the pertinence of the experience have been used. Documentary evidence is not required at the application stage but will be requested with the invitation to tender. Previous experience which caused breach of contract and termination by a CA shall not be used as reference.

Capacity-providing entities

An economic operator may rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. In that case it must prove to the CA that it will have at its disposal the resources necessary for performance of the contract through a commitment by those entities placing those resources at its disposal. Such entities, must comply with the same rules of eligibility as the economic operator relying on them and with the selection criteria for which the economic operator relies on them. The data for this third entity for the relevant selection criterion should be included in a separate document. Evidence will also have to be provided when requested by the CA.

For the technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

For the economic and financial criteria, the entities upon whose capacity the economic operator relies, become jointly and severally liable for the contract performance.

If more than 8 eligible candidates meet the above selection criteria, the relative strengths and weaknesses of their applications must be re-examined in order to rank them and identify the best 8. Additional comparative criteria considered during this re-examination, in the order in which they appear below, are:

- 1) highest number of projects that meet criteria b)
- 2) highest cumulative value of all the projects that meet criteria a).

N.B.: additional criterion No 1 shall be applied to all the eligible candidates that meet the selection criteria. If, after applying additional criterion No 1, it is not possible to identify the 8 best candidates because two or more candidates are tied for the 8th position, additional criterion No 2 shall be applied only to these candidates.
