

This architectural section drawing illustrates the structural layout of a building facade. The drawing includes the following details:

- Structural Elements:** The facade is supported by a series of vertical columns labeled A through F. The roof structure is shown with horizontal reinforcement bars. The floor is depicted with a hatched pattern, indicating a concrete slab.
- Dimensions and Levels:**
 - Horizontal dimensions: The total width of the section is 6060 units. The spacing between columns is 1180 units from A to B and E to F, and 1200 units between B and C, C and D, and D and E.
 - Vertical dimensions: The height of the main floor slab is 1185 units. The roof structure has a total height of 225 units, with a 95-unit section at the top.
 - Level markers: Elevation markers include +12.60 at the roof level, +12.10 at the top of the columns, +5.20 and +4.20 on the left side, +5 and +4.20 on the right side, +0.00 at the floor level, and +146.25 at the base of the columns.
- Internal Features:** The section shows internal partitions and doors within the rooms, including a staircase area on the right side.

[illegible]

Architectural cross-section drawing of a building. The drawing shows a gabled roof structure on the left, labeled "Magacin ambalaže" (Packaging Warehouse), and a flat roof extension on the right, labeled "Dogradnja F.P.D." (Extension F.P.D.). The drawing is divided into sections by vertical lines labeled 10, 11, 12, 1, 2, 3, and 4. The roof has a 7% slope. The ground level is marked as +0.00. The drawing is titled "S.V.R" (Structural Vertical Reference) and "S.V.R.3" (Structural Vertical Reference 3). The drawing is dated 2023.05.01.
