***Description of the procurement**

Procurement will be conducted as an international open tendering procedure, following the issue of the Contract Notice, with subsequent evaluation of tenders for the works. The EIB Guide to Procurement (September 2018) and Practical Guide to Contract Procedures of EU External Actions (Prag 24 June 2022) will be applied. The language of the procedure and contract will be English.

Participation is open to all natural persons and firms (participating either individually or in a grouping – consortium- of tenderers) originating from all countries of the world. A consortium may be permanent, legally – established grouping or a grouping which has been constituted informally for a specific tender procedure. All partners of a consortium (i.e., the leader and all other partners) are jointly and severally liable to the contracting authority. The participation of an ineligible natural or legal person will result in the automatic exclusion of that person. In particular, if that ineligible person belongs to a consortium, the whole consortium will be excluded.

No more than one tender can be submitted by a natural or legal person whatever the form of participation (as an individual legal entity or legal person submits more than one tender, all applicants or tenderers in which that legal entity has participated will be excluded. The award criterion is the lowest price of the compliant and technically responsive tender with the lowest price.
